## SENTRAL Student Administration and TimeChart

SENTRAL requires TimeChart to produce and save the following 4 files within your /Data folder

SCOURCES.TXT  
STAFF.TXT  
STUDENTS.TXT  
TTABLE.TXT  
TTSTRUCTURE.TXT

To do this, you need to manually create a text file called 'rollmarker.txt' using MS Notepad (or other text editor), and save it into your TimeChart program installation folder as follows;

The file does not need to have any content. Now log back into TimeChart, and then exit TimeChart.

Check your TimeChart '/Data' directory for the newly created text files SCOURCES.TXT, STAFF.TXT, STUDENTS.TXT TTABLE.TXT and TTSTRUCTURE.TXT as per the following screenshot;

(STAFF.TXT is only generated/updated if teachers are updated)

It is these four 'TXT' files that SENTRAL requires for import. Contact your SENTRAL Support Representative for more assistance on how to import these files.

**Additional Note:** if your export files contain unusual characters at the start and end of each record line and thus cannot be imported into SENTRAL, please check

TimeChart > Main Menu > Display > Preferences > General Tab > that the separator/delimiter settings are as follows

The format of these files are as follows:
